

# ACKNOWLEDGMENTS

Several people helped me in these last three years:

Prof. Paolo Menozzi and Dr. Valeria Rossi (my advisors);  
Prof. Luciano Bullini, Dr. Gessica Gorbi and Prof. Claudia Ricci (draft reviewers);

Carlo Bellavere, Daniel Boix and Paco Mezquita (ostracods pushers);  
Ken McKenzie and Claude Meisch (bibles of Ostracoda systematics);  
Roger K. Butlin, Koen Martels, Isa Schön and everybody from “Evolutionary Ecology of Reproductive Modes in Non-Marine Ostracoda” H.C.M. European Union Program;  
Prof. Nelson Marmioli, Antonella Massari and Giovanna Visioli (the Sequencers);  
Franco Sartore (informatics and statistics guru);

Valeria Rossi (again and again) (my personal positive-thinking trainer);  
Stefano Leonardi (deus ex machina (ex America));  
Ettore Di Masso, Marion Invidia, Paolo Piovani and Michela Troggio (my closest colleagues);

Paolo “cube-head” Bonilauri, Francesca Briano, Mattia Calzolari, Monica “Kirk” Gallani, Luisa Garulli, Giovanni Gentile, Giorgia Magnaschi, Marina Otero, Eletta Todeschi, Antonella Tommasi and Barbara Tondelli (in rigorous alphabetic order)

Giorgio Benassi and Enzo Siri (Lords of microscopes and CDs/Passwords, respectively) and Mimmo “Moses” Cavalca (the man who separated waters (from ions));  
Sante Pezzini, Daniela Barantani, Pasquale Rosanova and Antonio Borruto (in appearance order) (from the secretariat)  
Giovanna Gallo and Monica Vezzosi (from the library)

Luisa Palmieri (my favourite randomiser)

I thank you.
